Dear Ranger Christine and Ranger Laurie,

Hello, it was so interesting all those things you taught us. It was cool when you showed us the birds, alligators and the periphyton. I learned a lot in what you said. It was really great when we saw those big alligators when we walked through that path. It was very amazing when everybody was quiet and we heard animals.

Well, I gotta go. I hope I can see you guys again. Bye.

Sincerely,

Paula
